

Welcome to the MatrixShopping Online Income Program

Welcome to **MatrixShopping**, a revolutionary program created to help everyday people in Guyana make money online—**without any upfront investment**.

💡 What Is MatrixShopping?

MatrixShopping is a mobile app and training platform that teaches you how to become a successful online seller by using social media platforms like Facebook Marketplace and WhatsApp Business.

We take the guesswork and risk out of selling by handling:

- Product sourcing
- Importation
- Storage
- Delivery

All you need to do is **post, promote, and profit**.

🚀 How the Program Works

1. **Download the App**
 - Get access to video tutorials and step-by-step documents inside the app.
2. **Choose Products to Sell**
 - Find popular items on platforms like **Alibaba**.
 - Post these products on **Facebook Marketplace** to test demand.
3. **Collect Interested Buyers**
 - Aim to get **30 interested buyers** per product.
 - Collect each buyer's **name, phone number, and delivery address**.
 - Let them know the item is on the way and will be delivered in approximately **2 weeks**.
4. **Submit Buyer Information**
 - Once you have 30 leads, submit the details through the MatrixShopping app.
 - Our team will handle **importing the products** in bulk at **wholesale prices**, and store them at our secure location.
5. **Delivery & Profit Sharing**
 - When the items arrive, you will contact your buyers and schedule delivery.
 - MatrixShopping will handle all logistics.
 - **Profits are split 50/50** between you and MatrixShopping.

✂ What Makes MatrixShopping Unique?

Unlike other platforms like Amazon—where sellers must invest in inventory, pay storage and delivery fees, and manage risk—**MatrixShopping requires no upfront investment from the seller.**

Comparison:

Feature	Amazon Sellers	MatrixShopping Sellers
Must buy inventory upfront	✓	✗
Pay warehouse/storage fees	✓	✗
Handle shipping & returns	✓	✗
Risk losing money on unsold items	✓	✗
Share profits with platform	✗	✓ (50/50 split)

📈 Maximizing Your Success

We teach you how to:

- Use **Facebook Marketplace** effectively
 - Set up a **WhatsApp Business Catalog**
 - Understand **buyer psychology**
 - Target the **right customers** using paid Facebook Ads
 - **Liquidate slow-selling items** without losing money
 - Work with a **community of sellers** to increase product reach and visibility
-

🌐 Power of the Community

If your original Facebook post isn't generating enough sales, our seller network steps in.

- Other sellers in the MatrixShopping community can **repost your item** to reach more people.
 - They get **50% of your profit share** from any sale they help make.
 - If 20 sellers post the same product, it gets much **greater visibility** and better placement in the algorithm—resulting in more sales.
-

↻ No Sales? No Problem.

In the **unlikely** event that a product doesn't sell:

- **You lose nothing**—MatrixShopping made the investment, not you.
 - We **liquidate** the product by offering it on **sale at cost price**.
 - This means we **always recover our investment**, and no one is left at a loss.
-

➡📱 Ready to Start?

Download the MatrixShopping App and begin your journey toward financial independence.

Inside, you'll get:

- Video guides
- Documents and templates
- Access to our seller community
- Tools to start making money—**today**
